

ECOSOFT STANDARD WITH PUMP DRINKING WATER REVERSE OSMOSIS SYSTEM

Application: apartments and private houses.

System is designed for water supply systems with low pressure.

Description: reverse osmosis system.

Filtration technology:

- Sediment PP 5 micron filter
- GAC activated carbon filter
- Sediment PP 1 micron filter
- RO membrane
- Coconut shell carbon filter
- Mineralizing filter

Key features:

1. Best design of the product and packing.
2. System components are made of high-quality materials that are safe for drinking water, including European food grade polypropylene made by Rompetrol (Romania).
3. Delicious water due to Filmtec membranes and high quality activated carbon filters.
4. Two water types within one system — pure and mineralized drinking water.
5. Manufacturer assurance — all the systems are tested and approved for use.
6. CE marked and confirmed to be safe in accordance with EC New Approach Directives.

Specifications:

Code	Flow capacity, L/day	Inlet pressure, bar	Connections	Storage tank volume, L	Dimensions, H x W x D, mm
MO650MPECOEXP	190	2–5	1/2"	9	350 x 450 x 150

Components:

- Water purification system
- Set of pre-filter cartridges
- RO membrane
- Drinking water faucet, double handle
- Metal pressure tank and tank valve
- Feed water adapter, feed valve, drain saddle
- Service wrench
- Instruction manual
